

Dear Colleagues,

Subject: EFDA Work Programme 2012
Call for Participation: Goal Oriented Training Programme

Following the approval of the EFDA 2012 Work Programme for training activities by the EFDA Steering Committee at its 48th meeting in Strasbourg on 29 June 2011, you are kindly invited to submit proposals to the **fourth Call of the EFDA Goal Oriented Training programme**. The following information is enclosed:

- Call for Participation
- Guide for applicants
- Results of the Call for Interest launched on 11 July 2012

Let me recall that the only aim of the Call for Interest was to facilitate the formation of clusters. Therefore, Associations having answered the Call for Interest are not bound to answer the Call for Participation and Associations having not answered the Call for Interest are of course not excluded from the Call for Participation. Several clusters of Associations could address the same topic in view of complementarity or with a competitive approach.

Proposals are to be sent by email to Emilia Genangeli (emilia.genangeli@efda.org) not later than **23 November 2011**.

Please note that, although the EFDA Work Programme 2012 approved at the last EFDA Steering Committee foresees the funding of about 40 trainees (ppy/year) over three years, since the Fusion budget has not been yet finalised, I am unable to confirm at the moment the number of trainees that EFDA will be able to support. In agreement with the EFDA Chair and the European Commission I am launching the call at this stage to avoid delays in the implementation of the scheme.

Should you have any question, I invite you to contact Emilia Genangeli directly.
