

BILATERAL S&T COOPERATION BETWEEN

AND

UNDER THE GENERAL COOPERATION AGREEMENT FOR SCIENTIFIC RESEARCH BETWEEN THE INSTITUTUL DE FIZICĂ ATOMICĂ (IFA), ROMANIA AND THE COMMISSARIAT À L'ENERGIE ATOMIQUE ET ENERGIES ALTERNATIVES (CEA) FRANCE

CALL FOR PROPOSALS – OCTOBER 1, 2012

On the basis of the General Cooperation Agreement for Scientific Research between IFA-Romania and CEA-France signed on December 2, 2009, CEA units and Romanian research institutions are invited to submit joint project proposals. The purpose of the funding is to stimulate new collaborations which should result in joint research and development projects and joint applications to European (including IFA-CEA) programmes and initiatives.

The fields/topics opened for the call are the following:

Fields	Topics
Nuclear Energy:	Development of new generation nuclear power reactors
	Nuclear safety
	Spent fuel and radioactive waste management
	Exchange information relating to nuclear energy
	Education and training
New Technologies for Energy:	Fuel cells
	Solar cells
	Energy storage
	Hydrogen
Fundamental Research on Energy:	Nuclear fusion and fission
	Matter sciences
	Climate sciences
Technologies for Information and Health:	Micro and Nano-technologies
	Software technologies
	Biotechnologies
	Radiobiology and nuclear toxicology
	Radioprotection
	Medical imaging

Information for applicants:

1. Call for proposals – October 1, 2012 [pdf]
2. Application Form for Joint Research and Development Projects [pdf]
3. Application Form for Joint Support Actions Projects [pdf]
4. Information Package for Romanian applicants [zip]

The deadline for submission of proposals for Joint R&D Projects is November 16, 2012.
