Date: 19 October 2015

Dear Colleagues,

## **Annual Work Plan 2016**

### **Call for Proposals to be supported by the High Level Support Team (HLST)**

The High Level Support Team (HLST) provides support to users who perform massively parallel computational work in support of the European fusion physics programme.

With this letter, I would like to invite you to propose project(s) aimed at the optimisation of the performance of existing codes via their parallelisation and/or improvement of the efficiency of numerical algorithms which require support from the HLST. The proposal(s) should detail the scientific objectives of the project, the numerical tools used and the anticipated needs for high-level support and the expected ppm requirements following the attached "**Template\_for\_proposals.doc**".

Proposals should be sent via e-mail to Irina Voitsekhovitch ([irina.voitsekhovitch@euro-fusion.org](mailto:irina.voitsekhovitch@euro-fusion.org)) with copy to [susann.wangnett@euro-fusion.org](mailto:susann.wangnett@euro-fusion.org) through the GA Member no later than **15<sup>th</sup> November 2015**.

Should you have any question related to this letter, please contact Irina Voitsekhovitch.
