

PUBLICATIONS IN SCIENTIFIC JOURNALS

Günter S., Angioni C., Atanasiu C.V., et al., "Overview of ASDEX Upgrade results-development of integrated operating scenarios for ITER", Nuclear Fusion, **10** (2005) 98

Spineanu F., Vlad M., "Stationary vortical flows in 2-dimensional plasma and planetary atmosphere", Physical Review Letters 94 (2005) 235003.

Spineanu F., Vlad M., "Stationary vortical flows in 2-dimensional plasma and planetary atmosphere", electronic preprint arXiv.org/Physics/0501020, 106 pages (2005).

Spineanu F., Vlad M., "Describing two-dimensional vortical flows: the typhoon case", electronic preprint arXiv.org/Physics/0503155 (2005).

Vlad M., Spineanu F., "Larmor radius effects on impurity transport in turbulent plasmas", Plasma Physics and Controlled Fusion 47 (2005) 1015-1029.

Vlad M., Spineanu F., Itoh S. -I., Itoh K., Yagi M., "Turbulent transport of the ions with large Larmor radii", Plasma Physics and Controlled Fusion 47 (2005) 281-294.

Spineanu F., Vlad M., "Statistical properties of an ensemble of vortices interacting with a turbulent field", Physics of Plasmas 12 (2005) 112303.

Spineanu F., Vlad M., "Statistical properties of an ensemble of vortices interacting with a turbulent field", electronic preprint arXiv.org/Physics/0506099 (2005).

Spineanu F., Vlad M., "Soliton self-modulation of the turbulence amplitude and plasma rotation", Progress in Soliton Research, Editor L. V. Chen, Nova Publisher, ISBN 1-59454-769-6 (2005)

Steinbrecher G., Weysow B., "Short Range Equilibrium models and first exit time statistics of self-similar processes", Annals of the University of Craiova, (Physics AUC), vol. 15 (part II), 74-78, (2005).

Pometescu N., "Poloidal particle flux in a turbulent non-ohmic plasma in leading order approximation for passing particles", Annals of the University of Craiova, (Physics AUC), vol.15, 79 (2005).

Balescu R., Petrisor I. and Negrea M., "Anisotropic electrostatic turbulence and zonal flow generation", Plasma Phys. Control. Fusion, **47**, 2145 (2005).

Balescu R., Petrisor I. and Negrea M., "The influence of the diamagnetic Kubo number on zonal flow generation in weak electrostatic turbulence, [submitted to Plasma Physics and Controlled Fusion (2005)].

Negrea M., Petrisor I., "Electron diffusion in a sheared unperturbed magnetic field and a relatively high electrostatic turbulence", Annals of the University of Craiova, (Physics AUC), vol.15, 58 (2005).

Petrisor I., Negrea M. and Weyssow B., “*Electron diffusion in a sheared unperturbed magnetic field and an electrostatic stochastic field*” (submitted to Plasma Phys. Control. Fusion, (2005).

Dumbrajs O., Igorchine V., Constantinescu D., Zohm H., “*Stochastization as a possible cause of fast reconnection in the frequently interrupted regime of neoclassical modes*”, Physics of Plasmas 12 (2005), 110704

Stancalie, V. and JET EFDA contributors, “*New Method to Calculate the Gaunt factor for the Refinement of Z_{eff} Evaluation in Fusion Plasmas*”, EFDA-JET-CP(05)02-49

Chelmus, A.R.D. , Stancalie, V. “*Radiative Gaunt Factors*”, Journal of Optoelectronics and Advanced Materials, 7(2005)2405.

Stancalie, V. “ *$1s^2 2pns(^1P^0)$ autoionizing levels in Be-like Al and C ions*” Physics of Plasmas 12, 043301(2005)

Stancalie, V. “*Complements to nonperturbative treatment of radiative damping effect in dielectronic recombination: $\Delta n = 2$ transition in C IV*”, Physics of Plasmas 12, 100705(2005)

Stancalie, V., Burke, V.M., Burke, P.G., Hibbert, A., Scott, M.P., “*Electron impact excitation of complex atoms and ions: Forbidden transitions in Co^{3+}* ”, Submitted J. Phys. B.:At. Mol. Opt. Phys. (December, 2005)

Mihailescu, A., Stancalie, V. “*Complex atoms modelling for plasma diagnostics*”, Journal of Optoelectronics and Advanced Materials 7(2005)2413.

Corre, Y., Rachlew, E., Ceconello, M., Gravestijn, R.M., Hedqvist, A., Pégourié, B., Schunke, B., and Stancalie, V. “*Radiated power and impurity concentrations in the Extrap-T2R reversed-field pinch*”, Physica Scripta 71(2005)523.

Teodoru S., Tskhakaya D. jr., Kuhn S., Tskhakaya D. D., Schrittwieser R., Ionita C. and Popa G., “*Kinetic (PIC) simulation for a plane probe in a collisional plasma*”, J. Nucl. Mat. 337 (2005) 168

Costin C., Marques L., Popa G. and Gousset G., “*Two-dimensional fluid approach to the DC magnetron discharge*”, Plasma Sources Sci. Technol. 14 (2005) 168

Costin C., Popa G. and Gousset G., “*On the secondary electron emission in DC magnetron discharge*”, Journal of Optoelectronics and Advanced Materials 7 (2005) 2465

Celentano G., Galuzzi V., Mancini A., Rufoloni A., Augieri A., Petrisor T., Ciontea L., Gambardella U., “*YBCO films and CeO₂/YSZ/CeO₂ buffer layers grown on Ni-Cr-W RABiTS with a Pd seed layer*” IEEE Transactions on Applied Superconductivity, 15 (2 PART II), (2005), 2691.

Cancellieri C., Augieri A., Boffa V., Celentano G., Ciontea L., Fabbri F., Galuzzi V., Petrisor T., Tebano R., “*Deposition and characterization of $Y_{1-x}Ca_xBa_2Cu_3O_{7-\delta}$ epitaxial thin films*” IEEE Transactions on Applied Superconductivity 15 (2 PART III), (2005), 3038.

Avrigeanu M., Roman F.L., Avrigeanu V., “ *γ -ray strength functions and neutron capture cross-section analysis for $A \sim 180$ nuclei*”, Acta Univ. Debreceniensis, Ser. Phys. Chim. 38-39, (2005) 31.

Avrigeanu V., Avrigeanu M., Roman F.L., “*A global neutron optical potential for the rare-earth nuclei and total neutron cross section analysis for Hf, Ta and W isotopes*”, Acta Univ. Debreceniensis, Ser. Phys. Chim. 38-39 (2005) 39.

Tiseanu I., Craciunescu T., Mandache N. B., “*Non-destructive analysis of miniaturized samples and irradiation capsules by X-ray micro-tomography*”, Fusion Engineering and Design 75-79 (2005) 1005-1059.

Avrigeanu M., von Oertzen W., Fischer U., Avrigeanu V., “*Analysis of deuteron elastic scattering on ${}^{6,7}\text{Li}$ up to 50 MeV*”, Nucl. Phys. A759 (2005) 327.

Sporea D. G., Sporea R., “*Setup for the in situ monitoring of the irradiation-induced effects in optical fibers in the ultraviolet-visible optical range*”, Rev. Sci. Instr. 76, (2005).

Vlad G., Ionita R., Ciobanu I., Petcu C., Dinescu G., “*Processing of Selective Contours on Flat Surfaces by Computer Assisted Beam Tracking*”, in Plasma Polymers and Related Materials, eds. M. Mutlu, G. Dinescu, R. Forch, J.M. Martin-Martinez, J. Vyskocil, ISBN 975-491-194-0, Hacettepe University Press, 2005, pp.84-90.

Lungu C. P., Mustata I., Musa G., Lungu A. M., Zoroschi V., Iwasaki K., Tanaka R., Matsumura Y., Iwanaga Y., Tanaka H, Oi T., Fujita K.: “*Formation of nanostructured Re-Cr-Ni diffusion barrier coatings on Nb superalloys by TVA method*”, Surf and Coat. Techn, 200 (2005) 399.

CONTRIBUTIONS TO CONFERENCES AND WORKSHOPS

Atanasiu C.V., Miron I.G., “*An analytical model for resistive wall modes stabilization*”, 11th European Fusion Theory Conference, 26-28 September 2005, Aix-en-Provence, France.

Atanasiu C.V., Miron I.G., Günter S., Lackner K., Moraru A., Zakharov L.E., Subbotin A.A., “*MHD Modelling in Diverted Tokamak Configurations*”, 13th Conference on Plasma Physics and Applications, Iassy, Romania, 27-29 October 2005 (invited paper).

Atanasiu C.V., Miron I.G., “*An Analytical Model to Control Resistive Wall Modes*”, 13th Conference on Plasma Physics and Applications, Iassy, Romania, 27-29 October 2005.

Spineanu F., “*Field theory model for stationary vortical flows in plasma and planetary atmosphere*”, presented at Workshop on Dynamo Generation and Self-organization in Plasma & Fluid Turbulence, Kyushu University, Japan, February 2005.

Spineanu F., Vlad M., “*A background trend to ordered states in confined plasmas*”, presented at the 11th European Fusion Theory Conference, Aix en Provence, France, September 2005

Spineanu F., Vlad M., “*Statistical properties of a turbulent plasma of vortices interacting with random waves*”, presented at the 32nd EPS Conference on Plasma Physics, Taragona, Spain, June 2005, *oral presentation O4-20*.

Vlad M., “*Trajectory structures generated in 2d turbulence*”, presented at Workshop on Dynamo Generation and Self-organization in Plasma & Fluid Turbulence, Kyushu University, Japan, February 2005.

Vlad M., Spineanu F., “*Trajectory structures in turbulent plasmas*”, presented at the 32nd EPS Conference on Plasma Physics, Taragona, Spain, June 2005, P4-45.

Vlad M., Spineanu F., “*Test particles, test modes and self-consistent turbulence*”, presented at the 11th European Fusion Theory Conference, Aix en Provence, France, September 2005.

Spineanu F., Vlad M., “*Field theoretical models in fluids and plasmas*”, presented at the Albert Einstein Century International Conference, Paris-UNESCO, France, July 2005, *oral presentation*.

Vlad M., Spineanu F., “*From Brownian diffusion to the non-linear transport by continuous movements*”, presented at the Albert Einstein Century International Conference, Paris-UNESCO, France, July 2005, *oral presentation*.

Weyssow B., Steinbrecher G., “*Stochastic Modelling of Edge Plasma Turbulence*”, 11-th European Fusion Theory Conference, 26-28 September 2005, Aix-en-Provence, France.

Steinbrecher G., “*Fractional Brownian Motion in the Edge Plasma Turbulence*”, 13th Conference on Plasma Physics and Applications, October 27-29, 2005 Iasi, Romania.

Steinbrecher G., “*Modelling Instabilities by Stochastic Differential Equations*”, Seminar, DRFC/GTTM, Cadarache, 14-15 September 2005.

Pometescu N., “*Use of the drift kinetic equation to describe electromagnetic turbulent transport in the presence of radio frequency heating*”, 13th Conference on Plasma Physics and Applications, October 27-29, 2005 Iasi, Romania.

Constantinescu D., Weyssov B.: “*Order and Chaos in some Hamiltonian Systems of interest in Plasma Physics*”, presented in “Biannual Workshop on Stochasticity in Fusion Plasmas”, March 15-17 2005, Julich, Germany

Petrisor E., Constantinescu D., Misguich J., “*Destruction of invariant circles and transport barrier location in the dynamics of nontwist maps*”, presented in “2005 SIAM Conference on Applications of Dynamical Systems”, May 2005, Snowbird, Utah, USA

Constantinescu D., “*Regular and chaotic dynamics in non-autonomous Hamiltonian systems*”, presented in “The 4-th International Symposium on Quantum Theory and Symmetries”, August 2005, Varna, Bulgaria.

Stancalie, V., Pais, V., Mihailescu, A., Chelmus, A.R.D., “*Effective collision strengths for electron impact excitation in Al^{10+}* ” presented at the 32nd EPS Conference on Plasma Physics, 8th International Workshop on Fast Ignition of Fusion Targets, Tarragona, 27th June – 1st July 2005.

Mihailescu, A., Stancalie, V., Pais, V., Chelmus, A.R.D. “*Atomic data for Zn-like W ion as related to the plasma modelling*” presented at the 32nd EPS Conference on Plasma Physics, 8th International Workshop on Fast Ignition of Fusion Targets, Tarragona, 27th June – 1st July 2005.

Pais, V., Stancalie, V., “*Using Web Services for Remote Data Access and Distributed Applications*” presented at the 5th IAEA Technical Meeting on Control, data Acquisition, and remote Participation for Fusion Research, Budapest, Hungary, July 12 – 15, 2005.

Zoita V., Patran A., Pantea A., Craciun G., Grigore E., Scholz M., Tomaszewski K., Jednorog S., Strzyzewski P., Lee P., Vitulli S., “*Development of new neutron diagnostics for the PF1000 plasma focus installation*”, International Conference on Plasma Science, Monterey, California, June 19-23, 2005

Zoita V., Lee P., Patran A., Pantea A., Springham S.V., Koh M., Rawat R.S., Zhang T., Hassan M., “*Plasma focus neutron diagnostics by means of high sensitivity bubble detectors*”, International Conference on Research and Applications of Plasmas, Opole, Poland, September 6 – 9, 2005

Zoita V., Lee P., Patran A., Pantea A., Springham S.V., “*Neutron diagnostics using high sensitivity bubble detectors on the NX2 plasma focus device*”, 13th Conference on Plasma Physics and Applications, Iassy, Romania, October 25-26, 2005.

Teodoru S., Kuhn S., Tskhakaya D. jr. and Popa G., “*Time-independent theory and simulation results for a collisional plasma-wall-transition (PWT) in presence of fast electrons*”, the 4th International Conference on Global Research and Education, Wuppertal, Germany, 19–22 September 2005

Teodoru S., Kuhn S., Tskhakaya D. jr. and Popa G., “*Is the plasma at a plane probe unstable in the presence of fast electrons producing secondary electrons?*”, the 32nd EPS Conference of Plasma Physics, Tarragona, Spain, 27 June-1 July 2005

Sporea D., Sporea Adelina. “*Evaluation of Solarization Resistant Optical Fibers under Gamma-Ray Irradiation and Temperature Stress*”, presented at the Workshop on Fibres and Optical Passive Components, Palermo, Italy, June 2005.

Sporea D., Sporea Adelina, Constantinescu B., “*In-situ Measurements of Optical Fibers under Gamma-ray Irradiation*”, presented at the 12th International Conference on Fusion Reactor Materials, Santa Barbara, California, USA, December 2005.

Celentano G., Galuzzi V., Mancini A., Rufoloni A., Vanozi A. Augieri A., Petrisor T., Ciontea L., Gambardella U., “*YBCO coted conductors on highly textured Pd-buffered Ni-W tape*” EUCAS’05, 7th European Conference on Applied Superconductivity, 11-15 September, Vienna-Austria, Abstract Booklet (2005) 137.

Avrigeanu V., Avrigeanu M., Roman F.L., Forrest R.A., Eichin R., Freiesleben H, Seidel K., “*Sensitivity of activation cross sections of the Hafnium, Tantalum and Tungsten stable isotopes to nuclear reaction mechanisms*”, in: Proc. Int. Workshop on Nuclear Data Needs for Generation IV Nuclear Energy Systems, Antwerpen 5-7 April 2005, P. Rullhusen (Ed.), World Scientific, Singapore, (in press).

Avrigeanu M., von Oertzen W., Fischer U., and Avrigeanu V., “*Analysis of Deuterium scattering on $^{6,7}\text{Li}$ up to 50 MeV based on realistic effective NN interaction*”, in Nuclear Data for Science and Technology, R.C. Haight, M.B. Chadwick, T. Kawano, and P. Talou (Eds.), AIP Conf. Proc. No. 769 (2005) 99.

Sporea D., “*Reliability testing of laser diodes under irradiation*”, presented at the TEST 2005 Conference, Nuremberg, Germany, May 2005.

Sporea D., Vata I., Sporea R., “*Hetero-junction Laser Diodes under Neutron Irradiation*”, presented at the 13th International Conference on Nuclear Engineering, Beijing, China, May 2005.

Sporea D., Sporea R., Oproiu C., Vata I., “*Comparative study of gamma-ray, neutron and electron beam irradiated index-guided laser diodes*”, presented at the RADECS 2005, Cap d'Agde, France September 2005.
