**Call to the Associations to Propose Activities within the Task Force Fusion  
Technology Component of the JET 2010 Work Programme**

Dear colleagues,

The purpose of this letter is to invite you to propose scientific and technical (S/T) activities within the Task Force Fusion Technology (TF-FT) component of the JET 2010 Work Programme. These TF-FT activities were approved by the EFDA Steering Committee on 24 March 2009 (EFDA (09) 40/3.6c). Details of the proposed programme, which are intended also to serve as guidelines for proposals, are given in the attached document "Priorities for JET Fusion Technology Activities in the 2010 Work Programme".

In line with the above-cited guidelines, I would appreciate receiving proposals for activities to be conducted in your Association. Your proposal should include, for each activity, a detailed description of the work to be performed (please use the attached proposal form). These should be received within the next six weeks, i.e. not later than **11 September 2009**. All proposals for future work will be considered and assessed by the EFDA CSU at Culham.

To discuss the technical content of the activities, please contact the Fusion Technology Task Force Leader Paola Batistoni ([batistoni@frascati.enea.it](mailto:batistoni@frascati.enea.it)) or the Deputy Task Force Leader Paul Coad ([paul.coad@jet.uk](mailto:paul.coad@jet.uk)). For further information please contact Nicolas Bekris ([nicolas.bekris@jet.efda.org](mailto:nicolas.bekris@jet.efda.org)) at the EFDA JET CSU in Culham.

Best regards

p.p. Francesco Romanelli
