Subject: ADAS-EU research fellowship

Dear Boris,

I enclose the official advertisement of a three-year ADAS-EU Research Fellowship offered by the Department of Physics, University of Strathclyde.

The appointment will further atomic physics for fusion in Europe under the ADAS-EU Framework 7 Support Action. The appointee will be based at the Max-Planck-Institute for Plasma Physics, Garching, Germany.

I should be most obliged if you would draw it to the attention of anyone whom you think may be interested in the position. Please note the closing date for applications is quite soon.

With best wishes and thanks,

Hugh
