Dear colleagues,

I would like to inform you that ENEA has launched an International Fellowship Programme open to researchers at different stages of their careers, willing to spend a mobility period working in ENEA Research Centers.

Fellowships are being awarded, on a competitive basis, both to:

- **Early-stage researchers:** Researchers with less than four-year research experience, since gaining a University diploma giving access to doctoral studies;
- **Experienced researchers:** Researchers having at least four years since gaining a University diploma giving access to doctoral studies OR already in possession of a PhD, and up to 10 years research experience.

Two of the international research fellowships are in fusion field, namely:

* **Density fluctuation measurements on FTU with a microwave reflectometer** (Degree in Engineering or Physics, Early stage)

* **Plasma wall interaction in an all-metal tokamak: modelling and diagnostics** (Degree in Physics, Experienced)

and will be hosted at the ENEA Fusion Unit in Frascati.

The deadline for applications is **28 February 2010**.

All information can be found in the ENEA web site

http://www.enea.it/opportunita/borse_int/Fellowship2009/call2009.html

Could you please disseminate this information within your Associations /Institutes?

Thank you very much

Best Regards

Paola Batistoni
