To : Heads of Research Units

Dear Colleagues

Subject: Provisional Agenda of the First General Planning Meeting for the JET Experimental Campaigns with the ITER-like Wall

Further to my letter of 14 December 2009 (letter ref: 6963-FR/MLW-L), I am pleased to send you the Provisional Agenda of the First General Planning Meeting for the JET Experimental Campaigns with the ITER-like Wall.

As you can see, the first two days of the meeting will be devoted to an introduction of the new capabilities and constraints for operating JET with the ITER-like Wall, upgraded Neutral Beam system and other enhancements. Over the following two days, a range of specific topics will be addressed with introductory presentations (~ 20 minutes each) and discussions aimed at identifying the major issues related to each topic. These discussions will provide the basis for the subsequent development of guidelines for the JET experimental programme with the ITER-like wall. On the last day, ITER needs will be reviewed in conjunction with the conclusions of the meeting.

I look forward to your Association being well represented at this meeting, which is scheduled for 1-5 March 2010 at the JET-site, Culham. In this respect, I would like to remind you that the proposal of your Association for participation in the meeting should be sent to George Sips (george.sips@jet.efda.org) by 31 January 2010.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Francesco Romanelli'.

Francesco Romanelli
EFDA Associate Leader for JET
