This is the 2nd announcement of the

---

26th Symposium on Fusion Technology

---

27 Sept. - 1 Oct. 2010  
Porto, Portugal

ORGANIZED BY  
Instituto de Plasmas e Fusão Nuclear (IPFN)

Symposium webpage: <http://soft2010.ipfn.ist.utl.pt>

IMPORTANT DEADLINES

Abstract submission	9th April 2010
Notification to authors	4th June 2010
Early registration	16th July 2010
Full paper submission	27th August 2010

OBJECTIVE

The objective of the Symposium on Fusion Technology (SOFT) is to exchange information on the design, construction and operation of fusion experiments and on the technology for present fusion machines, next-step devices and power plants. With the construction of ITER and NIF, fusion research is making a big step forward. ITER with its demanding requirements is expected to be a major topic of this symposium.

TOPICS

The Symposium will include invited and contributed papers on the following topics:

- A - Experimental Fusion Devices
- B - Plasma Heating and Current Drive
- C - Plasma Engineering and Control
- D - Diagnostics, Data Acquisition and Remote Participation
- E - Magnets and Power Supplies
- F - Plasma Facing Components
- G - Vessel/In-Vessel Engineering and Remote Handling
- H - Fuel Cycle and Breeding Blankets
- I - Materials Technology
- J - Power Plants, Safety and Environment, Socio-Economics and Transfer of Technology
- K - Laser and Accelerator Technologies
