The 3-rd International Conference "DUSTY PLASMAS IN APPLICATIONS"

Dear Colleagues,

We are pleased to announce that the 3-rd International Conference on Dusty plasmas in applications will be held in Odessa between

25 - 29 August 2010. Please see the Website

<http://dpa.onu.edu.ua> for further details.

Chairmen: Academician V.E.Fortov (Russia),

Academician A.G.Zagorodny (Ukraine),

Academician V.A.Smyntyna (Ukraine).

Topic of the conference: general theory and numerical simulation of complex plasmas, structures in dusty plasmas, combustion products plasmas,

methods for dusty plasma diagnostics, microgravity experiments,

dusty plasmas in technological applications, dust in fusion.

The meeting will take place in resort part of Odessa

at the Odessa Mechnikov National University.

Odessa is the largest industrial and scientific center

of Ukraine on the Black sea.

The Odessa University was founded in 1865 and now it is one of largest educational and scientific center of Ukraine.

The physics of disperse systems and plasmas of combustion products are traditionally researched in the University.

The preceding SU conferences on Low Temperature Plasma with

Condensed Disperse Phase took place in Odessa in 1981, 1985,

and 1988. Over 120 scientists from USSR have been participating

in each of these conferences. The first International Conferences on Dusty plasmas in applications were held in Odessa 25 - 28 August 2004,

26-30 August 2007.

We hope for your participation in the conference.
