Dear all,

We'd like to forward the details of the PRACE call for early access to the first PRACE supercomputer (below). The EUFORIA project is keen to support the fusion community in accessing such resources so will help both with providing support for the applications and can also provide matching porting/development support for preparatory access projects.

Please get in touch (e-mail https://www.nipne.ro/ifin/src/compose.php?send_to=support%40euforia-project.eu) if you need more information or would like support in this process.

thanks

adrianj
EUFORIA Support

PRACE Call for Early Access
=====

Issued 10th May 2010
Closing date 10th June 2010

The call for early access time on the first PRACE supercomputer is now open.

See:
http://www.prace-project.eu/hpc-access/early_access_call.doc

Invitation for proposals:

PRACE (The Partnership for Advanced Computing in Europe) announces a call for Early Access proposals on the first PRACE machine which is the Blue Gene/P supplied by the Gauss Computing Centre and based at Juelich in Germany.

This call is open to most European-based academic researchers and will award time on the machine and some optimisation support.

For full details see the PRACE website
<http://www.prace-project.eu/hpc-access>.
