

I am extremely sorry to get this sad news.

I have had the pleasure to work with Dr. Cristu since he started with INIS, and I have truly appreciated his professionalism and his valuable support to INIS during all these years.

Dr. Cristu was a true believer in INIS and its benefits to Member States. I remember very well the valuable discussions we have had during the ILOs Meetings.

I will always remember Dr. Cristu with great appreciation and respect.

Please accept my deep condolences. Please also pass my condolences to his family.

With my best regards,

Taghrid
